## Skills

**Frontend:** React.js, Redux, Hooks, Context API, Jest, Cypress, Yum, Axios, JavaScript, HTML, CSS, Ant Design

**Backend:** Node.js, Express, SQL, PostgreSQL, Docker, Python, Git CLI, GitHub, VS Code, Vercel, Heroku, Netlify

**Additional Skills:** Agile Project Management, Algorithms, Architecture, Debugging, Deployment

## Projects

[CoderHeroes](#) - React & Redux

- A web application to aid in the cause of helping underprivileged youth in the Chicagoland area break into tech.
- Pair Programmed with Backend and Data Scientists to develop a fully functional application
- Gave and received feedback to improve sections of code
- Participated in Stakeholder meetings to present progress

[African Marketplace](#) - React

- A platform to enable African business owners to create listings for items they have for sale and users to view listings from different market regions
- Made HTTP requests in a logical manner, and handled client side token authorization, deploying the application to Vercel

[Potluck Planner](#) - Node & Express

- Create and invite users to a potluck. Manage items, time, date, location, and attendees as an organizer. Accept or decline invites and manage attending potlucks as a user.
- Created authentication with JSON web tokens
- Made backend endpoints for HTTP requests
- Used PostgreSQL to create databases, table schemas, migration, and seed scripts

## Experience

**SPACES VIRTUAL REALITY**, San Jose, CA - Host

FEB. 2019 - MAR. 2020

- Consistently promoted the purchase of brand merchandise in tandem with the VR experience, increasing revenue by 20%
- Partnered with a team of 5 to provide a stellar customer service experience, frequently role playing with VR customers
- Identified and resolved technical issues with the virtual reality experience by troubleshooting bugs within the game

**ROUND TABLE PIZZA**, San Jose, CA - Supervisor

SEP. 2018 - FEB. 2019

- Actively engaged with customers, confirming a full understanding before addressing concerns
- Went above and beyond to fulfill customer requests
- Organized end of day variances and monthly inventory by maintaining a sufficient supply of all necessary ingredients
- Promoted a customer-first dining experience, effectively establishing a meaningful connection with 70% of customers
